

On behalf of the university community, the K-State Libraries has an electronic subscription to the Chronicle of Higher Education. It is available campus-wide, including remote access. In this time of economic belt-tightening, individuals, departments, and colleges that are paying for CHE subscriptions from university funds should consider canceling them and relying on the library-provided subscription. To access the Chronicle of Higher Education, type <http://chronicle.com> into your browser's search box.
