Get Hands On and Help Save a Life!

February is American Heart Month.

The American Heart Association is promoting cardiopulmonary resuscitation (CPR) and encouraging support for community automatic external defibrillators (AED) this year. It is also a time to think about how healthy we keep our hearts. The library has a display of books about CPR as well as the heart and cookbooks and consumer information about keeping the heart healthy. Of course, we can't forget our loved ones who can't speak for themselves ... our pets. The library has books available on veterinary cardiology and a few books on cooking for your small animal pet and some video tapes on emergency pet health. Please stop by the library and browse the display. Be sure to ask the staff if you see a book of interest or would like more books or information on a particular topic.

You Feed Him, You Walk Him, You Tend Him, You Love Him....
